

Cable Board Meeting  
May 28, 2025  
4:00 PM

Roll Call: All present

President Joe Glowacki calls the cable board meeting to order. Clint Brown motioned to accept the meeting minutes from April.

New Business is presented by Director John Pause. *Celebration In The Ville* lights and sound ran on the new stage. Everything seemed to run smoothly on Market Street Plaza. The new weatherbug send to WTHR is going to be their main live view of Connersville. The high quality cameras will not only help market our town with WTHR but will be useful for the police department and security. Various discussions then took place about the technology of Market Square Plaza. It's designed to be accessible for video and sound. The lights are safe to be outdoors and will be taken down and stored for the winter. The goal is to bring people downtown by having multiple events with live bands.

Income Report: John explains new state laws that will cut 20% of our funding. Next year when the law goes into effect our income will drop down to \$70,000. Current cash balance is \$169,519 with a total of \$336,928 available. Sam Harvey motions to accept the budget and Clint Brown seconds. All in favor.

Old Business: 30 days until the new law comes into effect. There are still plenty of boards who have not reached out or accepted the offer for TV3 to take over this responsibility. The School Corporation has now reached out and accepted. There were other various discussions on how townships and the county can handle the funding for this. TV3 is not trying to force people to comply but they are aware of the consequences if this is not done and they want to allow people the opportunity to get ahead of it.

Clint Brown motions to adjourn. Sam Harvey seconds.

Meeting adjourned.
