Old Business:

River Signage: UPDATE (Wade Walling)

911 Staffing

New Business:

Who is in Charge at a scene?

There have been some discussions about dispatching calls how they were received, then the scene changes once the agency is on scene. This has caused dispatchers to be reprimanded, and or confused when called out on not having the correct units responding.

PROTOCOLS: Talked briefly on this last time, so all the protocols in the dispatch center were created YEARS ago by whoever .

If your department needs to look over what dispatch has, and make changes to your dept then those would need to be in writing in the order you want the protocols changed.

E-DISPATCHES: Does this program work well for everyone, what is the plan going forward?

Pagers: Discussion

Public Safety Tax: Outcome to the benefits of this tax.

County is possibly giving a 2000.00 raise along with safety tax of 5000.00=7000.0 total raise

Giving 911 2000.00 will not be the case. So I have requested more than the 5000.00

Open Discussion

Next Meeting, City Hall September, 19th 2024 @ 5:30

The Change in location is due to John Pause saying the recording is better in this location.

All meetings are to be recorded/ with an Agenda.
